1. Core Implementation

Please complete the implementation tasks as outlined in the attached PDF. All instructions, expectations, and deliverables for the core task are included there.

2. Submission Instructions

All deliverables must be compiled into a single PDF file named:
AAI_FullStack_Firstname_Lastname.pdf

This PDF should include:
- A brief summary of your investigation & implementation approach
- Inline code snippets or scripts (either embedded directly or in an appendix)
- Screenshots/output examples where relevant
- Clearly indicate any use of GPT or AI assistants in your code and answers.

If your code, dataset, or demo is hosted externally (e.g., GitHub, Google Drive, Loom):
- Include clearly labeled links inside the PDF
- Ensure access settings are set to "Anyone with the link can view"

Submission Email:
- Send your final PDF to: people@acmeai.tech
- Subject line: Submission - Full Stack Developer Test - Your Full Name

3. Use of AI Tools / GPT Policy

- AI-generated code or assistance is permitted up to 40% of the overall submission.
- Citations are mandatory. Any section generated or aided by GPT or similar tools must be clearly marked in code comments or documentation.
- Failure to cite usage or exceeding the 40% threshold will result in disqualification.
- GPT/AI use will be reviewed and scored as part of the evaluation process.

4. Evaluation Criteria

The core task will be scored out of 100%.

Evaluation Area	Weight
Core Task Implementation	40%
Code Quality & Modularity	30%
Documentation & Clarity	20%
AI Usage Compliance	10%
